

Tips by Text Project

Information for Parents/Guardians

Dear Parent/Guardian,

Calmore Infant School is taking part in a project called 'Tips by Text'. As part of the project, some parents/guardians of children in Reception year will receive 3 text messages per week with tips and ideas for activities to improve their child's **language, literacy, numeracy and socio-emotional skills**.

In this project, we will test the effectiveness of the text messages using a randomised controlled trial (RCT). All this means is that some parents/guardians will receive text messages and some won't. Who gets the text messages will be decided at random. Using random selection is the best way to see if a programme has made a difference to pupil outcomes.

The project is a collaboration between the Education Endowment Foundation (EEF), the Behavioural Insights Team (BIT), the National Institute of Economic and Social Research (NIESR), the Institute for Employment Studies (IES) and the University of Oxford (i.e., the Research Team).

What is involved?

- Text messages will be sent to those randomly selected to receive them after October half term 2024 until July 2025.
- If you do receive the texts, **please do not share** them with other parents as this may affect the results of the research.
- Your child may complete two short assessments by trained researchers who will come to school in September/October 2024 and again in June/July 2025. These assessments of your child's language and self-regulation are designed to be fun and engaging, and we expect that your child will enjoy taking part.
- You may be asked to complete a short online survey in September-October 2024 and again in June-July 2025. There is no obligation to complete the surveys.
- You may also be invited to participate in telephone interviews. If you do, you will receive a £40 shopping voucher as a thank you for your time, this will not affect any other benefits you might receive. There is no obligation to do an interview.
- If you are not randomly selected to receive the text messages, that means that you will not receive any text message but you may still be included in some of the research activities above.
- Your school will be asked to provide feedback to us to share how they found the project. To do this, school staff will also be asked to complete online surveys.

What will happen to your data?

- In order to run the programme and evaluate its impact, Calmore Infant School will share data on you and your child with the Research Team.
- We take your and your child's data security very seriously and will be working closely with Calmore Infant School to ensure that data is handled appropriately and securely.
- All data will be shared and processed in accordance with General Data Protection Regulation (GDPR) and the Data Protection Act 2018.
- Your child's data will be treated with the strictest confidence and safeguards put in place to protect their data including the use of password protected spreadsheets, secure data transfer methods and high security storage methods where data are held in secure project folders with restricted access to relevant individuals working on this project and accessed via a two-step authentication process, in line with the security principles of the GDPR and Data Protection Act 2018 [Further information details can be found in the Privacy Notice for the project below and [here](#)].
- For the purposes of research and archiving, the responses will be linked with information about the pupils from the National Pupil Database (NPD) and shared with BIT, the University of Oxford, the Department for Education, the EEF, the EEF's archive manager, the Office for National Statistics and potentially other research teams. Further matching to NPD and other administrative data may take place during subsequent research. [[Please find the Privacy notice for the EEF data archive](#) | [EEF \(education endowment foundation.org.uk\)](#)].
- We will not use yours or your child's name or the name of the school in any report arising from the research.
- A final report is expected to be published in Summer 2026 and all details will be fully anonymised.
- If you have any questions about Calmore Infant School sharing data with the Research Team, please contact the Headteacher, Sarah Willes.

Tips by Text privacy notice

EEF data archive privacy notice

Would you like to participate?

You are under no obligation to take part if you do not want to. If you **do not** want you or your child to participate in the project, please return the form below.

If you do decide to take part, you are still free to withdraw your participation at any time. You can text 'STOP' in response to any text message you receive as part of this project, and you will no longer receive the text messages. However, you and your child would remain part of the project and you may be asked to complete the survey and may be invited to take part in an interview. To withdraw completely from the project, at any time, please email tipsbytext@bi.team

If you are happy for your child to participate, you do not need to do anything but please keep this form for your information.

If you **DO NOT** want to take part, or you **DO NOT** want your child to take part, please fill in the form below, sign and return to Calmore Infant School by **Thursday 12 September 2024**.

I confirm that **I DO NOT** want to participate in this project.

Signature: _____ Date: _____

Your name: _____

Name of your child: _____

School: Calmore Infant School

Tips by Text evaluation

Introduction

Your child's school is participating in a research project testing the impact of an early learning programme called 'Tips by Text'.

The Tips by Text project is a collaboration between the Education Endowment Foundation (EEF), the Behavioural Insights Team (BIT), the National Institute of Economic and Social Research (NIESR), the Institute for Employment Studies (IES), and the University of Oxford. Together, these parties (with the exception of the EEF) are referred to as the 'Research Team' in this Privacy Notice. The roles of each party named above are as follows:

- The EEF are the funders of the project.
- BIT will be responsible for designing the programme (in collaboration with trusted academics) and for sending text messages to parents/guardians randomly selected to receive them.
- NIESR/IES will evaluate the impact of the programme on pupil outcomes. They will also explore parents/guardians' perceived impact on pupil outcomes, explore their experiences of the programme and assess whether the programme could be implemented at a larger scale.
- The University of Oxford will have access to the data after the project has been completed to conduct secondary analyses.

This privacy notice sets out how the Research Team will collect and use your personal data.

After your child's school has shared personal data of pupils and parents/guardians taking part in the project with the Research Team, each member of the Research Team will become a separate data controller of this personal data in order to perform the roles set out above.

If you have any questions about this privacy notice, including any requests to exercise your legal rights in relation to your personal data, please contact NIESR/IES in the first instance.

NIESR

NIESR, 2 Dean Trench Street, Smith Square, London, SW1P 3HE

Email: kh@dpocentre.com

OR

IES

Institute for Employment Studies, City Gate, 185 Dyke Road, Brighton, BN3 1TL

Email: suzanne.anderson@employment-studies.co.uk

You also have the right to make a complaint at any time to the Information Commissioner's Office (ICO), the UK supervisory authority for data protection issues (www.ico.org.uk). We would, however, appreciate the chance to deal with your concerns before you approach the ICO, so please contact NIESR/IES in the first instance.

We promise to respect any of your personal information which is under our control and to keep it safe. We aim to be clear when we collect your information about what we will do with it and let you know of any material changes to this notice.

The Research Team deals with and shares your personal data following a data sharing agreement between the Research Team members. The agreement sets out the purposes for which we may process and share your personal data and our agreement to cooperate to protect your personal data and deal with any requests you may have.

What kind of information do we collect?

Your child's school will share the following information with BIT (who will then share it with other members of the Research team as necessary for them to fulfill their roles):

Pupils:

- Pupil name
- Date of birth
- Unique Pupil Number (UPN)
- Class name
- School name
- Pupil Gender
- Free School Meal (FSM) eligibility
- EAL Status

NIESR/IES will access and link this pupil data to background and school data held on the National Pupil Database (NPD). The NPD data to be requested will include whether or not the pupil is eligible for Free School Meals (FSM) as well as their gender.

NIESR/IES will match the above pupil data to data on pupil outcomes. This will include data from questionnaires and assessments administered as part of the project including a standard assessment of literacy skills and a measure of social development as well as data on outcomes available through the NPD.

Parents/guardians

- Name
- Email address
- Mobile telephone number
- Responses to text messages
- Responses to interviews and surveys
- NIESR will match responses from parent surveys to data from the NPD on their child's FSM status

What do we do with information we collect?

Each organisation will use the data for different purposes:

BIT

- To deliver the programme to parents/guardians (i.e., to send the text messages)
- To manage communications with parents/guardians
- To act as the main point of contact for schools and parents/guardians for anything to do with the text messages

NIESR/IES

- To conduct the randomisation (i.e., to randomly allocate parents/guardians to receive or not receive the messages)
- To match data received from schools and parents to NPD data and outcome data
- To contact parents/guardians about participating in interviews and surveys
- To instruct and liaise with independent test administrators
- To evaluate the impact and effectiveness of the programme and prepare a report about the project

The University of Oxford

- To build on existing work by the Department of Experimental Psychology on what works to foster an effective home learning environment for early years pupils

EEF

- At the end of the project, data will be submitted to the EEF's data archive which is managed by the Fischer Family Trust (FFT). At this point, EEF will become a data controller and FFT will be a data processor.

What is the lawful basis for processing your personal data?

We will only use your personal data where we have a lawful basis for doing so.

- BIT's legal basis for processing personal data is 'legitimate interests.' BIT considers that processing of personal data is necessary to conduct the delivery of the Tips by Text programme. This project fulfils BIT's core business aims, including undertaking research and delivering low-cost interventions that will deliver social impact.
- NIESR and IES' legal basis for processing personal data is also 'legitimate interests.' The evaluation of Tips by Text fulfils one of NIESR and IES' core business purposes (undertaking research, evaluation, and information activities) and is therefore in our legitimate interest, that processing personal information is necessary for the conduct of the evaluation.
- The University of Oxford's lawful basis for processing data is 'public interest task.' This research will build on existing work by the Department of Experimental Psychology on what works to foster an effective home learning environment.
- When the EEF becomes data controller at the end of the project as the data is submitted to the data archive, the legal basis for processing personal data is 'legitimate interests.' These legitimate interests include gathering data about what educational interventions work best, under what conditions, for which pupils, with a view to increasing attainment and reducing educational disadvantage.

Who else has access to your information?

The Research Team may disclose your information to third parties in connection with the purposes of processing your personal data set out in this notice. These third parties may include suppliers, research assistants, trusted academic partners and subcontractors who may process information on behalf of the Research Team to carry out such work as sending text messages, administering tests, undertaking interviews, transcribing interviews, and archiving data. In all cases, the Research Team will ensure that these third parties enter into appropriate data processing agreements with us and that they keep your personal data secure and confidential.

We may also disclose your personal information if required by law, or to protect or defend ourselves or others against illegal or harmful activities, or as part of a reorganisation or restructuring of our organisations.

International Transfers

Your personal information will not be transferred outside of the EEA.

Security

We take all reasonable steps to protect your personal information and follow procedures designed to minimise unauthorised access, alteration, loss, or disclosure of your information.

We have put in place procedures to deal with any suspected personal data breach and will notify you and any applicable regulator of a breach where we are legally required to do so.

Data Retention

We will only retain your personal data for as long as necessary to fulfil the purposes we collected it for, including for the purposes of satisfying any legal, accounting, or reporting requirements. When it is no longer necessary to retain your personal data, it will be securely deleted.

To determine the appropriate retention period for personal data, we consider the amount, nature, and sensitivity of the personal data, the potential risk of harm from unauthorised use or disclosure of your personal data, the purposes for which we process your personal data and whether we can achieve those purposes through other means, and the applicable legal requirements.

- BIT, NIESR and IES will delete any personal data six months after the completion of the project.
- The University of Oxford will retain the personal data up to three years after it is received.
- NIESR/IES will send the data to the Fischer Family Trust (FFT) archive within three months of project completion. FFT will keep the data on behalf of EEF, at which EEF take responsibility for Data Protection Compliance

Please note that, under Data Protection legislation, and in compliance with the relevant data processing conditions, personal data can be kept for longer periods of time when processed purely for archiving purposes in the public interest, scientific or historical research, and statistical purposes.

Your legal rights

Under certain circumstances, you have rights under data protection laws in relation to your personal data, including rights:

- To request access to your personal data: this enables you to receive a copy of the personal data we hold about you and to check we are lawfully processing it.

- To request correction of your personal data: this enables you to have any incomplete or inaccurate data we hold about you corrected.
- To request erasure of your personal data: this enables you to ask us to delete or remove personal data where there is no good reason for us continuing to process it.
- To object to processing your personal data: you can object where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms
- To request restriction of processing your personal data: This enables you to ask us to suspend the processing of your personal data.
- To request transfer of your personal data.
- To object to direct marketing (including profiling) and processing for the purposes of scientific/historical research and statistics.
- Not to be subject to decisions based purely on automated processing where it produces a legal or similarly significant effect on you.

If you wish to exercise any of the rights set out above in connection with this research project, please contact kh@dpocentre.com

You will not have to pay a fee to access your personal data (or to exercise any of the other rights). However, we may charge a reasonable fee if your request is clearly unfounded, repetitive, or excessive. Alternatively, we may refuse to comply with your request in these circumstances.

We may need to request specific information from you to help us confirm your identity and ensure your right to access your personal data (or to exercise any of your other rights). This is a security measure to ensure that personal data is not disclosed to any person who has no right to receive it. We may also contact you to ask you for further information in relation to your request to speed up our response.

We try to respond to all legitimate requests within one month. Occasionally it may take us longer than a month if your request is particularly complex or you have made a number of requests. In this case, we will notify you and keep you updated.

Changes to this Notice

We may change this Privacy Notice from time to time. If we make any significant changes in the way we treat your personal information we will make this clear by contacting schools and ensuring they provide you with an updated version of this Privacy Notice.
